

# what I'd say

by Michael Steinbruck

G D G D G  
If you could read my mind, like an old street sign, you'd know for sure just how I'm inclined

C G C D  
But hey that's not the only way, cause I'm speakin to you in a thousand ways, every day

G D G D G  
I may not be much with words, but I got much to say, so if my thoughts aren't heard, I can't lead the way

C G C D  
So please don't try to speak for me, just show a bit of faith and a little reciprocity

## CHORUS:

C D C D  
And I'm not here to tag along, there are places I belong

C G C C/B Am C C/B Am  
So if I knew that you were listening to me, here's what I'd saaaaaaaay, here's what I'd saaaaaaaay

G C G C G D  
I have the right for folks to love me, to wish on stars above me, the right to go where I would care to be

G C G C G D  
To hang around on main street, go out and spend my money, cause in the end you know we're all or none free

G D G D G  
If you walked with me, side by side, into your world, could you carry your head high

C G C D  
And are you brave enough to see, and help me share with others all the things you see in me

G D G D G  
Cause it's not about disability, it's a human thing to share the gift you bring

C G C D  
And we all have gifts but some get tucked away, someone out there needs a bit of what I have to give away

## CHORUS:

C D C D  
And I'm not here to tag along, there are places I belong

C G C C/B Am C C/B Am  
So if I knew that you were listening to me, here's what I'd saaaaaaaay, here's what I'd saaaaaaaay

G C G C G D  
I have the right for folks to love me, to wish on stars above me, the right to go where ever I would care to be

G C G C G D  
Hang around on main street, go out and spend my money, cause in the end you know we're all or none free

C D C D G  
No, I'm not here to tag along, there are places I belooooong
